Principal

July 24, 2017

Dear Parents,  
Greetings!

It is now close to three weeks since the school has reopened. All the students have settled down now and are showing a renewed sincerity in the class rooms, as well as in their participation in different school activities.

This year, The Asian School is celebrating its 18<sup>th</sup> Founders. In this regard, the school exhibitions and the variety entertainment programmes are being done in a slightly larger scale.

At this point of time, the school needs your support to carry out these activities which is mainly done to train your child to develop their latent potential in different spheres viz., in music and in dance, in addition to academics. It may happen, as we come closer to the Founders the students may be asked to report in the afternoon and evening to participate in the rehearsals. I would certainly like you to permit your children who are participating in Founders day activities to come for these practices. Please send in your consent in this regard by sending a note in your wards', student's diary.

While on this, I would like to mention that this year the Founders day has been preponed and the Annual Sports events has been altered. The amended schedule is as follows:

Annual Sports Day	-	Wednesday, October 11, 2017
Founder's Day	-	Friday, October 13, 2017
Long weekend begins	-	Saturday, October 14, 2017
Classes resume	-	Monday, October 23, 2017

The school will close for winter vacations on Sunday, December 10, 2017. Boarder parents are requested to complete their reservation in time, as per these new schedules.

The other most important subject that needs all our attention is the precautions that all of us have to observe to keep our children away from the effects of H1N1 virus (Swine flu). In case your child is having severe cough and high fever, then please do not send the child to school till she/he is completely cured. Secondly, please discourage your children for having any canned non-vegetarian food till this problem is completely over. We need to take all precautions because 'Prevention is better than cure.' All cough and fever are not related to this type of flu. However, it is better to take the doctor's opinion, on this. With your support I am sure that we can look after your children's health, efficiently.

While on this, I would like to bring to your notice that there is a typographical error printed on the student's diary on Sunday, 5<sup>th</sup> November, 2017. Kindly ignore the event mentioned on this date. **The school re-opens after Diwali break on Monday, 23 October, 2017.**

There have been various meetings and a decision has been taken to disallow students who drive motorcycles and other vehicles into the school. You are now advised to influence your child to come to school by bicycle.

With warm regards,  
Yours sincerely,

Principal
